REF: APPLICATION TO EXTEND EXPIRY DATE OF LICENSE XB001268.

Dear Ms Wright

Due to the recent decision by the U.S. Department of Energy to temporarily halt the supply of tritium products to commercial customers we will be unable to ship our order of tritiated targets for the Japan Atomic Energy Research Institute (JAERI) before the abovementioned license expires on August 31, 1989.

Kindly extend the license by one year to permit us to despatch the materials as soon as the Department of Energy resumes their supply activities.

Please contact me if you require any additional information in connection with this request.

Sincerely,

R.M. Fisk
Vice President, International.
