GENTLEMEN:

Mr. Thomas Moenster has been the Radiation Safety Technologist at Alton Memorial Hospital from January 1985 to November 1987. During this time his duties included periodic surveys for radioactivity as well as the accountability of radioactive material received and disposed.

He has worked with the medical radiation safety officer closely during this time and helped to set up radiation safety standards which have always been found acceptable by both the state and federal inspection officers.

Yours truly,

John H. Hooker, M.D.
Radiation Safety Officer,
Alton Memorial Hospital
