Control No. 83048

Gentlemen:

On April 1, 1987, the Nuclear Regulatory Commission (NRC) revised its regulations (in entirety) to modify the process for licensing and regulating the medical use of radioactive byproduct material in 10 CFR 35.

Pursuant to this revision, we are requesting that you resubmit your renewal application dated February 23, 1987, in accordance with the revised regulations. We have enclosed a current copy of 10 CFR Part 35 and Regulatory Guide 10.8, Revision 2, "Guide for the Preparation of Applications for Medical Programs," dated August, 1987 which should assist you in completing this task.

Also, please note that in order for us to approve Dr. Umemori as an authorized user for radiopharmaceuticals listed in 10 CFR 35.100 and 55.200, we need the following additional information:

1. Dr. Umemori must obtain and/or document classroom and laboratory training as described in 10 CFR 35.920(b)(1).
2. He must obtain and/or document supervised work experience and supervised clinical experience totaling 500 hours as described in 10 CFR 35.920(b)(2) and (3).

We will continue our review of your application upon receipt of this information. Please reply in duplicate, within 90 days, and refer to Control Number 83048 .

If you have any questions or require clarification on any of the information stated above, you may contact us at (312) 790-5625.

Sincerely,

Evelyn R. Matson
Materials Licensing Section

Enclosures:

1. 10 CFR Part 35
2. Regulatory Guide 10.8, Revision 2,
dated August, 1987
