Mt. Vernon, IN 47620

Gentlemen:

Enclosed is Amendment No. 01 to your NRC License No. 13-10455-03 in accordance with your request.

Please note that your amendment was also issued in accordance with our telephone conference held on March 2, 1988.

Please review the enclosed document carefully and be sure that you understand all conditions. You must conduct your program involving radioactive materials in accordance with the conditions of your NRC license, representations made in your license application, and NRC regulations. In particular, note that you must:

1. Operate in accordance with NRC regulations 10 CFR Part 19, "Notices, Instructions and Reports to Workers; Inspections," 10 CFR Part 20, "Standards for Protection Against Radiation," and other applicable regulations.
2. Possess radioactive material only in the quantity and form indicated in your license.
3. Use radioactive material only for the purpose(s) indicated in your license.
4. Notify NRC in writing of any change in mailing address.
5. Request and obtain appropriate amendment if you plan to change ownership of your organization, change locations of radioactive material, or make any other changes in your facility or program which are contrary to your license conditions or representations made in your license application and any supplemental correspondence with NRC. Any amendment request should be accompanied by the appropriate fee specified in 10 CFR Part 170.
6. Submit a complete renewal application with proper fee or termination request at least 30 days before the expiration date on your license. You will receive a reminder notice approximately 90 days before the expiration date. Possession of radioactive material after your license expires is a violation of NRC regulations.
7. Request termination of your license if you plan to permanently discontinue activities involving radioactive material prior to your expiration date.

You will be periodically inspected by NRC. Failure to conduct your program in accordance with NRC regulations, license conditions and representations in your license application will result in enforcement action against you in accordance with the General Policy and Procedures for NRC Enforcement Actions, 10 CFR Part 2, Appendix C.

If you have any questions or require clarification of any of the above stated information, contact us at (312) 790-5625.

Sincerely,

SUBJECT

CN's 84979 & 84980

SUMMARY

It was explained to Mr. Uhde that in order to authorize service operations on his gauging & measuring devices he would have to submit the necessary info in the Reg. Guide (June 1985).

after realizing the complication of his request Mr. Uhde decided to omit his request for servicing. He stated that they just wanted the Authorization for emergency situations and that the manufacturer would be doing all servicing. It was explained to Mr. Uhde that during an emergency he should follow his emergency procedures and call the manufacturer.

- Result - we will add Mr. Clendenen to license as a user and alternate RSO, etc. Mr. Uhde will be sending his Certificate of Training from Texas Nuclear ASAP. as additional info to the license file,

ACTION REQUIRED

issue modified amendment Request in accord with this telecon.

Re: Amendment to License 13-10455-01 and 13-10455-03 (3P)

Gentlemen:

Please amend both above mentioned licenses to add Dave Clendenen, Certified Industrial Hygienist, as alternate Radiation Protection Officer while leaving Jerry Uhde listed also as alternate Radiation Protection Officer. Mr. Clendenen's training qualifying him for this assignment is attached for your review.

Also, please add Dave Morlock, Radiation Specialist, to each of the above mentioned licenses as authorized individual that may perform installation, relocation, maintenance, replacement, radiation survey and disposal of sealed sources containing licensed materials located on the GE Mt. Vernon site.

A copy of Mr. Morlock's training from Kay-Ray, Inc. is attached for your review. All radioactive source devices that Mr. Morlock might be asked to handle on the site are similar to those Kay-Ray devices for which he received specialized training. Also, manuals on all other devices are available to Mr. Morlock and he is familiar with their operation. Mr. Morlock will also be utilized to respond to any emergency situations involving radioactive sources.

We also plan to continue utilizing the device manufacturers for installation, relocation, maintenance, etc. as listed on our present licenses.

Gentlemen:

In response to your recent telephone conversation with Cheryl Phillips of this office, we are returning Check No. 445369 (\$120). The check appears to be in payment of a license fee; however, we have no record of receiving an application and we understand that your records do not indicate what the check is for.

The enclosed Part 170 contains information on license fees and the procedures for payment. If you have any questions concerning this matter, please let us know.

Sincerely,

Glenda Jackson

note to Maurice for g. Jackson call g.e. acct. Payable to find out what check # 44569 (\$120) was for

SUMMARY

I called Pat Anderson, g.e.'s accounting operations. Check # 44569 (\$120) which was received by L & MB w/o an application and appeared to be in payment of a license fee.

after numerous phone calls to individuals at g.e. who supervised the use of licensed material (Gary Wade, Dave Clemson, + Gerald Bender)

Pat Anderson requested that the check be returned since their records did not indicate what the check was for.

ACTION REQUIRED

1. g. took to Sandy Kimberly to log in R/T log, since the check was from MA.

2. Prepare little attorney check Sandy/gt. covered
