Attn: Mr. Ledyard B. Marsh, Chief
Mechanical Engineering Branch
Division of Engineering and System Tech.

Gentlemen:

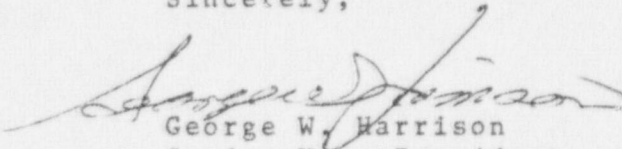

Subject: Information Regarding Team, Inc.,
Flange Leak Repair Devices and Sealants

In our letter to you dated September 29, 1989 regarding our flange leak repair devices and sealants, there was a typographical error on page 7, 4th paragraph, last sentence. This sentence should read:

"The calculated value is that amount of sealant pressure which would not appreciably increase the stud stress."

I apologize for this error and would appreciate you making the necessary correction and notifying the people to whom you may have given copies of this correction.

Sincerely,

George W. Harrison
Senior Vice President
