Dear Mr. Roberts:

Thank you for your letter of August 22, 1989, in which you identified July 1, 1990 as the revised date for implementing revisions to radioactive materials portions of Department of Transportation Hazardous Materials Regulations which would make them compatible with those of the International Atomic Energy Agency (IAEA).

The date of July 1, 1990 is also acceptable for NRC implementation of radioactive materials transportation regulations comparable to those of the IAEA.

Sincerely,
