DOCKET NO. 50-499
NOTICE OF ISSUANCE OF FACILITY OPERATING LICENSE

Notice is hereby given that the U.S. Nuclear Regulatory Commission (the Commission or NRC), has issued Facility Operating License No. NPF-80 to Houston Lighting & Power Company, City Public Service Board of San Antonio, Central Power and Light Company and City of Austin, Texas, (the licensees) which authorizes operation of the South Texas Project, Unit 2 (the facility) at reactor core power levels not in excess of 3800 megawatts thermal in accordance with the provisions of the license, the Technical Specifications and the Environmental Protection Plan.

On December 16, 1988, the Commission issued Facility Operating License No. NPF-78 to the licensees which authorized operation of South Texas Project, Unit 2, to five percent of reactor power (190 megawatts thermal). License NPF-80 supersedes NPF-78.

The South Texas Project, Unit 2 is a pressurized water reactor located in Matagorda County, Texas, west of the Colorado River, 8 miles north-northwest of the town of Matagorda and about 89 miles southwest of Houston.

The application for the license complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's regulations. The Commission has made appropriate findings as required by the Act and the Commission's regulations in 10 CFR Chapter I, which are set forth in the license. Prior public notice of the overall action involving the proposed issuance of an operating license for the South Texas Project was published in the FEDERAL REGISTER on December 20, 1977 (42 FR 63826).

The Commission has determined that the issuance of this license will not result in any environmental impacts other than those evaluated in the Final Environmental Statement (dated August 1986) since the activity authorized by the license is encompassed by the overall action evaluated in the Final Environmental Statement.

Pursuant to 10 CFR 51.52, the Commission has determined that the granting of relief and issuance of the exemptions included in this license will have no significant impact on the environment. These determinations were published in the FEDERAL REGISTER on December 9, 1988 (53 FR 49804), December 16, 1988 (53 FR 50604) and December 16, 1988 (53 FR 50605).
