Dear Sir:

Central Maine Medical Center requests an amendment to their teletherapy license as follows:

Under Item 7a we would like to change the teletherapy sealed source from (AECL Model C-146 or Neutron Products, Inc. Model NPI-20-600JW) to (AECL Model C-164 or Neutron Products, Inc. Model NPTT-SERIES).

The reason for the model change is that we are obtaining a 15 millimeter diameter source instead of a 20 millimeter diameter source which we are currently licensed for. The activity of the new source shall not exceed 6,900 curies. The new source will be installed by Neutron Products, Inc., under the requirements of Maryland license MD-31-025-03. Neutron Products, Inc. shall also be responsible for the disposal of the existing source.

In addition to the license amendment we also request an extension in the five-year inspection requirement. The inspection was last performed on April 4, 1983. Our new source, however, will not be installed until late May of 1988. Therefore we request that the NRC allow us to postpone our five-year inspection for 120 days.

\$230 *(C)*

We have enclosed a check for ~~\$120~~ to cover the application for amendment. We appreciate your prompt response to this request.

If you have any questions or need additional information please contact Terry D. Zipper, M.S., Radiation Safety Officer (207) 795-2459.

Sincerely,
