Re: Request For Listing Of Responsibilities
Of Your Agency

Dear Sir/Madam:

This Division and Department has as one of its responsibilities ensuring that the direct actions, permitting actions, and financial assistance to state and local governments carried out by federal agencies are consistent with the policies of the New York State Coastal Management Program.

The State's Coastal Management Program was approved in August 1982. Since that time we have coordinated our activities with your agency and other federal agencies to conserve the precious resources of the State's coast while acting to revitalize development along the waterfront in its coastal communities.

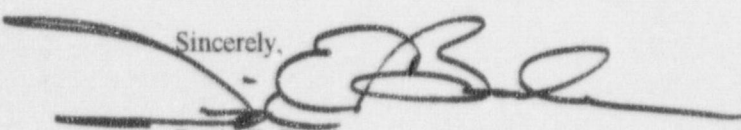

We are in the process of revising and updating the list of federal activities - direct actions, permitting and licensing actions, and funding actions - that are required to be consistent with the State's CMP. With that in mind we are asking that you provide us with any printed information, such as annual reports, which set forth the responsibilities of your agency.

Kindly send the information to the following address:

New York State Department of State
Division of Coastal Resources and Waterfront Revitalization
41 State Street, Eighth Floor
Albany, NY 12231
Attn: David E. Buerle

Material can also be sent to our Fax: (518) 473-2464. Should you wish to discuss this request please call me at (518) 473-7969 or (518) 474-6000. Thank you for your cooperation.

Sincerely,

David E. Buerle
