2. IP 37801	08/11/97	IP 37801	09/09/20
3. IP 60801	01/11/16	IP 60801	09/09/20

TRAINING: No special training is required for any documents issued with this Change Notice.

REMARKS: IMC 0111, "Region I Monitoring Activities for the Department of Energy West Valley Monitoring Project," has been revised to to highlight unique interactions at the site and commitments made by the U.S. Department of Energy and the Licensee since the document was last updated, identify that an export controlled information review is needed before releasing licensing basis and safety basis information, and reference key documents that were developed since the last update to the ICM.

IP 37801, "Safety Reviews, Design Changes, and Modifications at Permanently Shutdown Reactors," has been revised to include feedback from inspectors and also for format and editorial changes. The content of this procedure was updated to focus on the inspector's efforts on risk informing the inspection.

IP 60801, "Spent Fuel Pool Maintenance, Surveillance, and Safety at Permanently Shutdown Reactors," has been revised to focus on the inspector's efforts on risk informing the inspection. This procedure now includes information from IP 62801, "Maintenance and Surveillance of Permanently Shutdown Reactors," which was deleted.
