This drawing and the symbols it contains are the property of the Bureau of Reentry. It is to be used only for the purpose for which it was prepared and is not to be reproduced, copied, loaned, exhibited, or used in any way without the express written consent of the Bureau.

8 GENERAL NOTES

8.1 Electrical contact symbols are used to indicate mechanical devices such as pressure switches, level switches, etc. All switches are shown with the operating force applied.

8.2 All electrical devices are shown de-energized.

8.3 For timing devices and for switches actuated by some mechanical force as in air pressure, level, etc., additional operating information is included with the device description at the device table where required.
