Dear NRC Staff,

The following comments were transcribed from the video recording of the People's Hearing held by the Nuclear Issues Study Group on Wednesday, September 16, 2020 (Available online: <https://www.youtube.com/watch?v=CfCBsXCQyOU>). These written comments are being submitted with the consent of the commenters. The transcription was made possible by the work of the Nuclear Issues Study Group volunteers.

KELSIE HERZER:

I go to UNM. I'm a student studying chemical engineering, and I don't have much to say. I'm pretty new to this information about Holtec. But I do, I did attend the Radioactive and Hazardous Materials Committee of the New Mexico Legislature, and the DOE alone, I'm pretty sure, has a \$3,000,000,000 budget for LANL alone to be spent on nuclear energy and the like. So the money is clearly there and I think this money needs to be, you know, reinvested into the waste that they are creating. Thank you guys for hosting this event.
