**Subject:** [External\_Sender] No nuclear waste in our landfills (Document ID NRC-2020-0065-0001)

Dear Nuclear Regulatory Commission,

I oppose the Nuclear Regulatory Commission's plan to change regulations on how nuclear waste is disposed of. Nuclear waste is dangerous no matter how the NRC classifies it. With improper disposal, radioactive waste can leak into local water and food supplies. If incinerated, it can be released into the air.

This dangerous new proposal means that radioactive waste could end up in a landfill near me! Commissioners have a sworn oath repeats what your job is to do/follow all laws inside USA for landfills; plus your personal job requirements are obvious// w/or without politics you all are to serve USA citizens (regarding any aspect of the nuclear waste landfills please enact a moratorium which denies implementation of Doc#ID NRC-2020-0065-0001--no action til end of 2029 when it could be reviewed in public domain again.. Commissioners action(request) is dangerous to public health!

This proposed plan puts communities at risk since communities could be exposed to radioactive nuclear waste without even knowing it. Keep nuclear waste under regulatory control & out of public landfills.

I urge you to protect people and end any plans that allow for nuclear waste in landfills. (Regulations.gov Document ID NRC-2020-0065-0001).

Sincerely,

arleen fordock
