Subject: [External_Sender] No nuclear waste in our landfills (Document ID NRC-2020-0065-0001)

Dear Nuclear Regulatory Commission,

I oppose the Nuclear Regulatory Commission's plan to change regulations on how nuclear waste is disposed of. Nuclear waste is dangerous no matter how the NRC classifies it. I am beyond fed up with the Trump administrations drive to cut regulations and make things easier for corporations at the cost of our lives. With improper disposal, radioactive waste can leak into local water and food supplies. If incinerated, it can be released into the air. And depending on what type of radiative waste is disposed of, it can continue to be dangerous for hundreds or thousands of years.

This dangerous new proposal means that radioactive waste could end up in a landfill near me! It is also one more way in which communities of color and poor communities will be targeted and residents many of whom won't even have access to health care because our corporate, for profit health care system is utterly broken) will end up having their lives cut short in the name of increasing corporate profit.

This proposed plan puts communities at risk since communities could be exposed to radioactive nuclear waste without even knowing it. Keep nuclear waste under regulatory control and out of public landfills. Hold generators of nuclear waste accountable.

I urge you to protect people and end any plans that allow for nuclear waste in landfills. (Regulations.gov Document ID NRC-2020-0065-0001).

Sincerely,

Karen Jacques
