Subject: [External_Sender] No nuclear waste in our landfills (Document ID NRC-2020-0065-0001)

Dear Nuclear Regulatory Commission,

I oppose the Nuclear Regulatory Commission's plan to change regulations on how nuclear waste is disposed. Accumulated waste is a decades-old problem. Correct? Nuclear waste is dangerous no matter how the NRC classifies it. With improper disposal, radioactive waste can leak into local water and food supplies. If incinerated, it can be released into the air causing more deadly damage. You know it doesn't go away just like Covid-19 isn't.

This dangerous new proposal means that radioactive waste could end up in any private or public landfill right near where you reside! This is decidedly a wretched idea. Who claims it?

This proposed plan puts communities at risk since communities could be exposed to radioactive nuclear waste without even knowing it. The Machiavellian intent here is appalling.

Your places in Hell have been reserved.

KEEP NUCLEAR WASTE UNDER REGULATORY CONTROL. To do otherwise is illegitimate and criminal. To withhold information from the public, dumping nuclear waste without approval of the majority of the citizenry might happen in your neighborhood. And you can't do this monstrous thing where the people are the poorest and most vulnerable. We're watching you.

I urge you to protect people and end any plans that allow for nuclear waste in landfills. (Regulations.gov Document ID NRC-2020-0065-0001).

Sincerely,

Adrienne Davis
