Subject: [External_Sender] Keep nuclear waste out of our landfills.

Dear Nuclear Regulatory Commission,

Re: Document ID NRC-2020-0065-0001

Having spent year working on nuclear waste issues and the problem nuclear waste poses, I strongly oppose your commission's plan to change regulations on how it is disposed of. Nuclear waste is dangerous no matter how you classify it. With improper disposal, radioactive waste can leak into local water and food supplies. If incinerated, it can be released into the air.

This dangerous new proposal means that radioactive waste could end up in a landfill near my community, and that makes me very worried. It further worries me that communities could be exposed to radioactive nuclear waste without even knowing it.

Keep nuclear waste under regulatory control and out of public landfills.

I urge you to protect people and end any plans that allow for nuclear waste in landfills. (Regulations.gov Document ID NRC-2020-0065-0001).

Sincerely,

Pamela A. Lowry
