Subject: [External_Sender] No nuclear waste in our landfills (Document ID NRC-2020-0065-0001)

Dear Nuclear Regulatory Commission,

I write to strongly oppose the Nuclear Regulatory Commission's ridiculous plan to change the regulations on how nuclear waste can be disposed of!
It does NOT matter how the NRC chooses to classify Nuclear waste, no matter what you call it - it is dangerous to people and to OUR environment!
Improper disposal WILL cause the radioactive waste to leak into OUR local water and in to OUR food supply and if you choose to incinerate it, it WILL be released into the air that we breathe!

This is a VERY dangerous proposal that ultimately, should it be passed and adopted - it WILL mean that radioactive waste will end up inside of a landfill near me - which will make my quality of life LESS and the quality of life for my children LESS!

There is NO QUESTION that this proposal puts our communities at HIGH risk for exposure to radioactive nuclear waste -and many communities will not even be aware or know that it is happening!

I write to plead and beg, for the good of our Country, for the good of our land, air and water - keep ALL nuclear waste under regulatory control and MOST especially OUT out of ALL public landfills!

I urge you to protect people and end any plans that allow for nuclear waste in landfills. (Regulations.gov Document ID NRC-2020-0065-0001).

Sincerely,

S. Reizburg
