Date: Wednesday, October 14, 2020 11:37:28 AM

Mr. Torres,

I will honor the 90-day exemption request and get an amendment in soon for a final location. The reason I asked for a longer extension is that I know most amendment turnaround is at around 90 days. I wasn't sure about making the time table.

Sincerely,

Michelle White

EXTERNAL EMAIL. Proceed with caution. If you suspect phishing use the Report Phishing button or forward this email to phish@avera.org

Would you agree with the 90-day approach or do you want to still pursue the 1 year exemption? If pursuing the 1 year I may need to ask additional information such as justification.

Thank you.

Subject: Exemption request

Ms. White:

After speaking with my management the preferred solution for your exemption request is to approve another 90-day extension and to submit an amendment request in the interim to make this permanent change to the license. Your amendment request should be a signed and dated letter containing the following information.

1. Provide diagram of area
2. Restate the commitments made in the original exemption request about training, who will have access, etc.

3. Send the amendment request via email to our licensing assistant carol.hill@nrc.gov and cc: heather.gepford@nrc.gov.

Thank you for your cooperation.
