Dear Nuclear Regulatory Commission,

I OPPOSE the Nuclear Regulatory Commission's plan to change regulations for the disposal of nuclear waste. I was HORRIFIED that you would even CONSIDER these dangerous changes!

Nuclear waste is DANGEROUS, no matter how the NRC classifies it.

With improper disposal, radioactive waste will leak into local water and food supplies. If incinerated, it will be released into the air.

This dangerous new proposal means that radioactive waste could end up in a landfill near me!

This dangerous proposal also puts generations of communities at risk, since communities could be exposed to radioactive nuclear waste without even knowing it! (Not to mention the wildlife affected.)

Keep nuclear waste under Federal regulatory control, OUT of public landfills, and OUT of our air and water!

(Honestly, I just want to say WHO THINKS of these sick ideas?! Do you actually BELIEVE that endangering GENERATIONS of families and communities is a GOOD idea?!)

I urge you to protect people and end any plans that allow for nuclear waste in landfills. (Regulations.gov Document ID NRC-2020-0065-0001).

Sincerely,

Sheila Mast
