Subject: [External_Sender] Docket NRC 2020-0065 Transfer of VLL (Radioactive) Waste to Exempt Persons for Disposal

Dear U.S. Nuclear Regulatory Commission (VLLW),

Dear NRC Commissioners and Staff:

I object to the Nuclear Regulatory Commission's (NRC) proposed reinterpretation of the rules which would allow radioactive waste to go to persons and places without radioactive licenses Docket NRC 2020-0065.

Do not release radioactive waste to places without nuclear regulatory control.

Do not give "specific exemptions" to entities to take radioactive waste, regardless of what other permits they might have for other kinds of waste.

Keep nuclear waste out of our communities, solid and hazardous waste landfills and incinerators, processing and recycling centers.

I especially object to sending nuclear waste to hazardous waste sites because those sites are not designed to isolate radioactive materials and the combined health and environmental effects of both hazardous and radioactive materials could be exponentially worse than each on their own.

Reject the VLLW proposal and all others that would release nuclear waste from radioactive controls. Keep nuclear waste under lock and key and out of solid and hazardous waste sites, whether landfills, incinerators, or recycling.

Sincerely,

Sincerely,
Ruth Persky
