Waste to Exempt Persons for Disposal

Dear U.S. Nuclear Regulatory Commission (VLLW),

Dear NRC Commissioners and Staff:

Much care and safety monitoring has gone into the operation of nuclear power plants. Let's not drop the ball by letting any nuclear waste be deposited in landfills, even those with areas designated for hazardous waste, such as the lead contained in some paints and other dangerous chemicals. Due to its extremely hazardous properties, nuclear waste needs to be sequestered in hardened off-site storage (HOSS) facilities, and monitored on a regular basis.

Hoping you will keep the well-being of inhabitants in all communities In mind as you plan for how to store additional nuclear waste.

Sincerely,
Rebecca Ramsay

Sincerely,
Rebecca Ramsay
