Subject: [External_Sender] Docket NRC 2020-0065 Transfer of VLL (Radioactive) Waste to Exempt Persons for Disposal

Dear U.S. Nuclear Regulatory Commission (VLLW),

Dear NRC Commissioners and Staff:

Chances of pollution from nuclear waste must be minimized as much as possible. The power is in your hands, so I strongly urge the Nuclear Regulatory Commission/NRC to not release radioactive waste to places without nuclear regulatory control.

Keep nuclear waste out of our communities, solid and hazardous waste landfills and incinerators, processing and recycling centers. I especially object to sending nuclear waste to hazardous waste sites because those sites are not designed to isolate radioactive materials and the combined health and environmental effects of both hazardous and radioactive materials could be exponentially worse than each on their own.

Reject the VLLW proposal and all others that would release nuclear waste from radioactive controls.

Sincerely,

Sincerely,
Kathleen Drury
