Subject: [External_Sender] radioactive waste

It is beyond my comprehension that you can, or even would, consider dumping radioactive waste in our landfills or for that matter in any other areas that are not radioactive waste ready and certifiably safe. Come up with a plan that would keep **YOUR** loved ones safe as well as the loved ones of us all. Isn't our country going through enough chaos and trauma now? Why add to the mix of incompetence and total disregard for humankind and our earth!
