

October 19, 2020

Title: Pre-Application Meeting with Exelon Generation Company, LLC (Exelon) Regarding a Proposed Alternative to Certain Requirements in Title 10 of the Code of Federal Regulations (10 CFR) Section 50.55a , "Codes and standards."

Date(s) and Time(s): November 04, 2020, 10:00 AM to 11:00 AM

The time of the meeting is local to the jurisdiction where the meeting is being held.

Location: Teleconference

Category: This is a Category 1 meeting. The public is invited to observe this meeting and will have one or more opportunities to communicate with the NRC after the business portion of the meeting but before the meeting is adjourned.

Purpose: Discuss a planned Exelon fleet request for an alternative to certain requirements in 10 CFR 50.55a. Every 10 years, each operating reactor is required to update its inservice testing and inspection programs to the latest edition and addenda of the applicable codes of the American Society for Mechanical Engineers (ASME) that are incorporated into 10 CFR 50.55a. Exelon proposes to reduce the frequency of these updates to once every 24 years. In addition, Exelon proposes to extend the inservice testing and inspection intervals from 10 years to 12 years.
