Dear U.S. Nuclear Regulatory Commission (VLLW),

Dear NRC Commissioners and Staff:

I object to the Nuclear Regulatory Commission's (NRC) proposed reinterpretation of the rules which would allow radioactive waste to go to persons and places without radioactive licenses Docket NRC 2020-0065. Do not release any radioactive waste to places without nuclear regulatory control. Do not give "specific exemptions" to entities to take radioactive waste, regardless of what other permits they might have for other kinds of waste.

NRC is proposing to allow some amount of radioactive emissions from unregulated "specific exempt" sites as from operating nuclear power reactors and waste dumps. This is unacceptable and furthermore, no amount of "millirems" is acceptable because they are not verifiable, enforceable or necessary.

Please reject the VLLW proposal and all others that would release nuclear waste from radioactive controls. Keep nuclear waste under lock and key and out of solid and hazardous waste sites, whether landfills, incinerators, or recycling.

Sincerely,  
Andrea Garrison

Sincerely,  
Andrea Garrison
