Subject: RE: Please void action for mail control number 592468

Hi Becky and Lyn,

During the Licensing and Inspection self-assessment, we identified one licensing action that still appeared to be "pending amendment" in WBL. The licensee had requested a withdrawal and a Milestone 22 was entered. We checked with Steve Hammann (the license reviewer) and there were no changes to the license. Since there is not a "Withdrawal" option in WBL, the action still appears to be pending. Can you please convert this action to a "Void" so that the action can officially be closed out in WBL>

We have copied Tony and Donna on this email to get their approval for this resolution.

Licensee Name		Mail Control No.		Package Accession No.	
US Department of Health and Human Services		592468		ML16347A522	
License No.	Docket No.	License Type	Action Type	Date Received	Date Issued
20-08361-01	03004675	03610	EA	11/28/2016	11/25/2019
WBL - this amendment appears to be pending in WBL On 11/25/2019, the reviewer issued a letter (ML20008D359) to the licensee acknowledging the licensee's request to withdraw their amendment request for the partial site release. Also, on 11/25/2019, the reviewer entered Milestone 22-'Licensing Action Complete', and stated that the Licensee requested withdrawal of request. Since there is not a "Withdrawal" option in WBL, action should be processed as a "Void."					

Please let us know if you have any questions. Thanks!

Jan and Laurie
