Dear Nuclear Regulatory Commission,

I strongly oppose the Nuclear Regulatory Commission's plan to change regulations on how nuclear waste is disposed of. Nuclear waste is still dangerous no matter how the NRC classifies it. With improper disposal, radioactive waste can leak into local water and food supplies. If incinerated, it can be released into the air.

This insane and dangerous new proposal means that radioactive waste could end up in a landfill near me or you. This proposed plan puts communities at risk all over the nation and anyone who finds out about this plan will not be in favor of it! Nuclear wastes should never be in local landfills!

I urge you to protect people and end any plans that allow for nuclear waste in landfills. (Regulations.gov Document ID NRC-2020-0065-0001).

Sincerely,

Lynnette Saunders
