Morgantown, WV 26501

SUBJECT: DIEFFENBAUCH & HRITZ, LLC, REQUEST FOR ADDITIONAL INFORMATION,
MAIL CONTROL NO. 623309

Dear Mr. Smith:

This is in reference to your application dated September 29, 2020, requesting to terminate NRC License No. 47-31463-01. In order to continue our review, we need the following additional information:

Your NRC license authorizes the possession of up to 18 mCi of Cs-137 and 88 mCi of Am-241/Be for use in Troxler Electronic Laboratories Model 3400 Series portable gauging devices. However, your termination request included leak tests and transfer records for 27 mCi of Cs-137 and 132 mCi of Am-241/Be for use in Troxler Electronic Laboratories Model 3400 Series portable gauging devices. As such, please provide the following:

- a. Please provide a copy of your Pennsylvania Agreement State license.
- b. Please confirm which of the Troxler Model 3400 Series gauges were stored and utilized in NRC jurisdiction as opposed to PA Agreement State jurisdiction.
- c. FYI only – No response required – If the same information was provided to the PA Agreement State license reviewers, please consider providing updated information to their license reviewers to avoid duplicate requests for additional information.

We will continue our review upon receipt of this information. Please submit your response to Jonathan.Pfingsten@nrc.gov.

In order to continue prompt review of your application, we request that you submit your response to this letter within 10 calendar days from the date of this letter.

An electronic version of the NRC's regulations is available on the NRC Web Site at: www.nrc.gov. Additional information regarding use of radioactive materials may be obtained on the NRC Web Site at: <http://www.nrc.gov/materials/miau/mat-toolkits.html>. This site also provides the link to the toolbox for updated information on the revised regulations for naturally-occurring and accelerator-produced radioactive materials (NARM).

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web Site at: <http://www.nrc.gov/reading-rm/adams.html>. Please be aware that you may request that certain portions of your submittal to NRC be withheld from public disclosure as proprietary information. To do this, you must execute an affidavit as specified in 10 CFR 2.390. You must list all portions that you wish to be held proprietary, along with your reasoning as to why that is appropriate. While it is allowable, please refrain from submitting proprietary information in support of a license unless necessary. Keep in mind that all NRC licenses are considered to be in the public domain, and therefore may be viewed by any member of the public who requests to see them.

If you have any questions regarding this request for additional information, please contact me at 610-337-5170 or via electronic mail at Jonathan.Pfingsten@nrc.gov.

Thank you for your cooperation.

Sincerely,

Jonathan B.
Pfingsten
