**SUBJECT:** DRAFT SAFETY EVALUATION FOR THE WESTINGHOUSE ELECTRIC COMPANY TOPICAL REPORT WCAP-18443-P/WCAP-18443-NP, REVISION 0, "QUALIFICATION OF THE TWO-DIMENSIONAL TRANSPORT CODE PARAGON2"

Ms. Zozula:

By letter dated October 31, 2019 (Agencywide Documents Access and Management System (ADAMS) Accession No. ML19308C034), Westinghouse Electric Company submitted for U.S. Nuclear Regulatory Commission (NRC) staff review the Topical Report (TR) Westinghouse WCAP-18443-P/WCAP-18443-NP, Revision 0, "Qualification of the Two-Dimensional Transport Code PARAGON2."

A copy of the draft SE has been placed in the [box.com](#) folder. Parvez Khambatta, Westinghouse, has been given access to the folder. The draft SE is being provided for a proprietary information review. If Westinghouse provides comments on other areas, the NRC staff will exercise its discretion on whether to address those comments.

Pursuant to Section 2.390 of Title 10 of the *Code of Federal Regulations* (10 CFR), we have determined that the draft SE may contain proprietary information. If you believe that any information in the draft SE is proprietary, please identify such information line-by-line and define the basis pursuant to the criteria of 10 CFR 2.390. Use bold brackets and yellow highlight to identify any [proprietary information]. After 10 working days, the draft SE will be made publicly available, if appropriate.

Your response must be via a letter from an authorized individual. In addition, please provide an electronic redline/strikeout Word version of the SE via [box.com](#) folder. It helps expedite the NRC staff response to comments if Westinghouse provides in the formal transmittal and in a separate Word file, a table with the following columns; Comment No., Page No., and Line No., Comment Type (if comments other than proprietary information are provided (i.e., clarity, accuracy)), Suggested Revision, and a blank column NRC Disposition. However, Westinghouse may provide its comments in any format it chooses. The final SE will be issued after making any necessary changes.

Note that at this stage of the process, the NRC staff has completed its review of the submitted information and will not entertain technical arguments. The staff conclusions and

conditions will not change unless new information is provided that was not available during our review. If Westinghouse would like to discuss the draft SE in detail, we can do that in a noticed meeting that can be closed if proprietary information will be discussed.

Both this e-mail and the draft SE have been placed in ADAMS and made Official Agency Records. The draft SE is declared as nonpublic because it may contain proprietary information. This email is declared public.

If you have any questions, please feel free to contact me at 301-415-3151 or by e-mail at [Ekaterina.Lenning@nrc.gov](mailto:Ekaterina.Lenning@nrc.gov).

Sincerely,  
Ekaterina Lenning
