Taehoon,

Attached is a response from Materials License No. 24-32795-01 (ERA Environmental & Safety, Inc.), Docket No. 03038286, in reference to Control No. 622825.

I have tentatively identified this as Non-Public Available as I believe the response may contain Personally Identifiable Information (e.g., Home Address, Personal Mobile Phone Number and Personal E-mail Address). Please upload it into ADAMS as a draft at this point. I will confer with Frank regarding the Document Availability and will resubmit this Form 665 with the final package upon completion of the termination amendment.

I hope this is all you need. I am in quarantine for 10 Days so I'll be around if not.  
Just let me know and I will be with Heuresis for their invoice.  
Thank You SO MUCH for all your help. I was just lost on what to do.

Ms. Detillier:

The Leak Test Report I was able to obtain from Viken Detection Corporation demonstrates that the device is not leaking and may alleviate the need for the performance of a facility closeout radiation survey. Upon receipt of your formal response letter providing the information that you do have available, I will confer with a Senior License Reviewer to ensure that there is an adequate basis for proceeding with the license termination.

Please do proceed with submitting a response to my letter, providing the additional information and documentation that you have obtained. This includes the date of transfer and transfer letter from Heuressis Corporation.

I am trying to find someone to do the survey. I have even called MO DNR Radiation Program and have not received a response. I'll try again since they may not be working in the offices for non essential personnel. If you know of any companies in Missouri that are licensed to do surveys that would do something small like this one I would really appreciate it.

Ms. Detillier:

Good morning.

I have not received the response to the Request for Additional Information dated September 15, 2020. The response was due on October 2, **2020**. I have attached a follow-up letter requesting a response by October 26, 2020.

As a note, last week I was able to obtain some very helpful information from James Blute, Radiation Safety Officer, with Viken Detection Corporation (formerly known as Heuresis Corporation). This included a copy of their Massachusetts Radioactive Material License and a copy of the Leak Test Report for the RMD Instruments Model LPA-1 XRF Analyzer, S/N 1146, containing the Co-57 QSA Model A3901-2, S/N A3-580.

The provision of these records from the Viken Detection Corporation will serve to satisfy some of the requests included in my letter. I do still need a response to my letter providing the documentation that you do have available. You may provide this information on signed company letterhead or you may resubmit the NRC Form 314, "Certificate of Disposition of Materials."
