SUBJECT:

Perry Nuclear Power Plant
Docket No. 50-440, License No. NPF-58
Response to Request for Additional Information for Proposed Alternative to American Society of Mechanical Engineers Boiler and Pressure Vessel Code IR-056, Revision 3 (EPID L-2020-LLR-0004)

By letter dated January 6, 2020 (Agencywide Documents Access and Management System (ADAMS), Accession No. ML20006D984), Nuclear Regulatory Commission (NRC) approval was requested for proposed alternatives to the American Society of Mechanical Engineers (ASME), Boiler and Pressure Vessel Code, for the fourth 10-year inservice inspection interval for the Perry Nuclear Power Plant.

By electronic mail dated October 5, 2020, the NRC requested additional information to complete its review of Proposed Alternative Request No. IR-056, Revision 3. The Energy Harbor Nuclear Corp. response to this request contains proprietary information that is considered privileged and confidential trade secrets, which should be withheld from public disclosure in accordance with 10 CFR 2.390(a)(4). A publicly available version of the response is provided in Attachment 1, which has the redacted information identified by brackets []. An unredacted version of the response is provided in Attachment 2. An Electric Power Research Institute affidavit, which supports withholding the privileged and confidential trade secrets from the public, is enclosed.

Attachment 2 to this letter contains proprietary information.
Withhold from public disclosure under 10 CFR 2.390.
Upon removal of Attachment 2, this letter is uncontrolled.
