Reference: Request of change of Radiation Safety Officer

License No. 21-26060-01

I am requesting a change in the license to replace Terry Wilkins the current Radiation Safety Officer (RSO) with Dustin McDonald to become the Radiation Safety Officer (RSO). I have sent Dustin's Training and experience information previously, and am in process of securing a RSO training course to meet 10CFR 34.42(a)(3) which has been difficult due to the current pandemic outbreak. I am sending this letter and the delegation of authority for the proposed RSO with the required signatures.

If there is a need for additional information please let me know, as we will continue to update the NRC on the training requirement for Dustin.

Thank You,

Terry Wilkins
Radiation Safety Officer

DELEGATION OF AUTHORITY TO RADIATION SAFETY OFFICER (RSO)

Dustin McDonald is being appointed radiation safety office for Mid American Inspection Service Inc. and shall assume responsibility for ensuring the safe and secure use of radioactive materials utilized by this company. He shall be responsible for managing the Radiation Safety Program to include identifying radiation protection issues and providing corrective actions. Oversee required training of personnel to meet compliance of regulations in accordance with 10 CFR part 34. Review of dosimetry records to assure 10 CFR part 20 requirements are being followed by company personnel. Oversee required audits and equipment inspections along with all 10 CFR part 37 security requirements and notifications. He shall have the support of management and given full authority over all employees involved in the radiation program, and any other concerns he may have concerning the safe use of licensed materials by Mid American Inspection Services Inc.
