Subject: Remote Inspection

Discussion: (10/26/2020; 10:30) I spoke with Mr. Bedoya to determine if the company would be able to support a remote inspection. I informed Mr. Bedoya that the inspection would involve a compiling of records since the last inspection in May of 2015 to be sent to me in pdf form for my review, interview of personnel who perform licensed activities, demonstration of the use, storage and transport of the gauges, and a virtual walk-through of the facility. Mr. Bedoya stated that he was currently working at a job site but believed the company could support a virtual inspection. I inquired as to whether the facilities at 655 Winding Brook Drive were still being used. Mr. Bedoya stated the facility at they had not and the facility was no longer under their control. I requested that a letter be sent in requesting that the facility be removed from the license and, in the letter, indicate leak test records pertinent to the gauges stored at the facility were part of the record.

(11/16/2020) I called r. Bedoya and asked him if he had submitted the records to me. He stated that he had been doing a lot of field work and had not gotten to it yet. He expected to get the documents to me later in the week.
