**Subject:** Beaver Valley 2.206 Petition  
**Date:** Tuesday, November 17, 2020 12:01:00 PM

---

Mr. Saporito,

This e-mail is to inform you that I will be the Petition Manager for your November 8, 2020, 10 CFR 2.206 petition request. I will keep you informed of the status as the evaluation of your petition progresses. Please feel free to contact me with any questions about the process and/or the status of the petition review at any time.

In your submittal you requested that the NRC issue Confirmatory Orders to Energy Harbor Nuclear Corp. related to the October 28, 2020 Beaver Valley Power Station, Unit No. 2 "Reactor Vessel Capsule Y Analysis Report." The NRC staff has concluded that your petition has screened into the 2.206 process in accordance with Section II.A.2(d) of NRC Management Directive (MD) 8.11, "Review Process for 10 CFR 2.206 Petitions" (Agencywide Documents Access and Management System (ADAMS) Accession No. ML18296A043), and a Petition Review Board will begin its evaluation.

Following review in accordance with Sections II.B.1 of MD 8.11, the NRC staff has concluded that the reactor vessel embrittlement related concerns expressed in your petition do not warrant immediate action.

As the PRB begins its evaluation, I would like to ensure that you are aware that because the 2.206 petition process is a public process, the petition and all the information in it, including your identity, will be made public. If you do not want your identity to be made public the petition will be screened out of the 2.206 process in accordance with MD 8.11 Section II.A.2(d)(iv) and may be addressed as general correspondence.

Thank you.  
-Jenny
