NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

January 25, 2021

Ms. Kimberly Steves, Director
Kansas Radiation Control Program
Kansas Department of Health and Environment
1000 SW Jackson Suite 330
Topeka, KS 66612

Dear Ms. Steves:

We have reviewed the proposed revisions to the Kansas Administrative Regulations in various sections of §28-35-135, §28-35-196a, §28-35-221b, §28-35-282, §28-35-500, §28-35-504a, and §28-35-505, received by our office on October 27, 2020. These regulations were reviewed by comparison to the equivalent U.S. Nuclear Regulatory Commission (NRC) rules and Regulation Amendment Tracking System Identification Number (RATS ID) 2015-3 as identified in the enclosed State Regulation Status (SRS) Data Sheet. We discussed our review of the regulations with you on January 15, 2021.

As a result of our review, we have ten comments that have been identified in the enclosure. Please note that we have limited our review to regulations required for compatibility and/or health and safety. Under our current procedure, a finding that the Kansas regulations meet the compatibility and health and safety categories of the equivalent NRC regulation may only be made based on a review of the final Kansas regulations. However, we have determined that if your proposed regulations were adopted, incorporating our comments, and without other significant change, they would meet the compatibility and health and safety categories established in the Office of Nuclear Material Safety and Safeguards (NMSS) Procedure SA-200, "Compatibility Categories and Health and Safety Identification for NRC Regulations and Other Program Elements."

We request that when the proposed regulations are adopted and published as final regulations, a copy of the "as published" regulations be provided to us for review. As requested in NMSS Procedure SA-201, "Review of State Regulatory Requirements," please highlight the final changes, and provide a copy to Division of Materials Safety, Security, State, and Tribal Programs, NMSS.

The SRS Data Sheet summarizes our knowledge of the status of other Kansas regulations, as indicated. Please let us know if you note any inaccuracies or have any comments on the information contained in the SRS Data Sheet. This letter, including the SRS Data Sheet, is posted on the NMSS State Communication Portal: <https://scp.nrc.gov/rulemaking.html>.

If you have any questions regarding the review results, the compatibility and health and safety categories, or any of the NRC regulations used in the review, please contact Michelle Beardsley, State Regulation Review Coordinator, at (267) 884-2305 (Michelle.Beardsley@nrc.gov) or Joe O'Hara at (240) 808-0546 (Joe.OHara@nrc.gov).

Sincerely,

Brian C. Anderson, Chief

COMPATIBILITY COMMENTS ON KANSAS PROPOSED REGULATIONS

STATE SECTION		NRC SECTION	RATS ID	CATEGORY	SUBJECT and COMMENTS
1	Multiple	10 CFR Part 71	2015-3	Multiple	<p>General comment</p> <p>As written, certain Kansas' equivalent provisions to 10 CFR Part 71 contain requirements which can create conflicts, duplications, gaps, or other conditions that jeopardize an orderly pattern in the regulation of agreement material.</p> <p>As general guidelines:</p> <ul style="list-style-type: none"> a. Kansas should not have written equivalent regulations for those that they adopt by reference (e.g., see comment 8); b. All regulations that are Compatibility Categories A, and B need to be written essentially identical or verbatim to NRC regulations. If State law prohibits the use of certain language or editorial styles, the State needs to provide an explanation in their cross reference document (e.g., see comments 2, 3, 4 and 5; c. Any references cited within the regulations should be direct and specific so that the licensee does not have to determine which apply (e.g., see comment 4). <p>Please note that the examples above are not all inclusive, therefore Kansas should review their regulations for other instances, and revise or correct them to be compatible with NRC's regulations.</p>

Kansas needs to reference 10 CFR 71.77 in their definition</p> <p>Kansas §28-35-135l(p)(1)(C) has “and” instead of “or”. Kansas needs to change the regulation to be consistent with §71.4 definition of Low Specific Activity (LSA) material.</p> <p>Kansas §28-35-135l(p)(D)(2)(A) uses “and” instead of “or”. KS needs to change the regulation to be consistent with §71.4 definition of Low Specific Activity (LSA) material.</p> <p>Kansas §28-35-135l(p)(D)(2)(B) has “or” at the end of the sentence which should be deleted to be consistent with §71.4 definition of Low Specific Activity (LSA) material.</p> <p>Kansas §28-35-135l(p)(D)(3)(B) should have an “and” at the end of the sentence. Kansas did not provide part 15 as part of the review so it is unclear what is contained in 'part 15'. The review notes that 10 CFR Part 71 subpart H has been adopted by reference but there is no mention of 10 CFR Part 71 subparts A and G. Kansas needs to either adopt the applicable sections of 10 CFR 71 subparts A and G by reference, or submit equivalent regulations.</p> <p>Kansas needs to make the above changes in order to meet the Compatibility Category B designation assigned to 10 CFR 71.17 and 71.21.</p>

Since this is designated as Compatibility Category NRC, Kansas cannot adopt this regulation by reference.</p> <p>Kansas needs to remove the adoption by reference of this regulation in section 28-35-504a(c)(1) in order to meet the Compatibility Category NRC designation assigned to 10 CFR 71.85(a) – (c).</p>
