December 4, 2020

Mr. Travis Wyatt, Radiation Safety Officer
Element Technical Services, LLC
675 Hereford Lane
Casper, Wyoming 82609

SUBJECT: LICENSEE NOTIFICATION AND ACKNOWLEDGEMENT OF WITHDRAWAL OF
AMENDMENT REQUEST

Dear Mr. Wyatt:

By application dated June 25, 2020, you submitted an amendment request to receive approval to perform non-routine maintenance on your fixed gauges. On October 7, 2020, I sent you an email containing a request for additional information. On November 17, 2020, you indicated that you were having issues scheduling training as part of the request for additional information, and on December 3, 2020, you withdrew your request to amend the license. If you wish to re-submit this amendment request once you have the necessary information, please submit a new amendment request via email to our licensing assistant at carol.hill@nrc.gov.

In addition, by letter dated September 3, 2020, you informed the NRC of the change of your corporate radiation safety officer as of October 1, 2020. Please be advised that your request does not require a modification to your existing material license, as the radiation safety officer on your materials license remains the same.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Thank you for your cooperation.

Sincerely,

Casey Alldredge, Health Physicist
Materials Licensing and Decommissioning Branch

Good morning Travis,

Please see the attached letter which acknowledges your withdrawal of the amendment request provided to the NRC in an application dated June 25, 2020. The attached letter also acknowledges your letter, dated September 3, 2020, notifying the NRC of the change in the corporate RSO. This change did not require any amendment to your NRC license.

If you have any questions, please let me know.

Thanks,

Casey Alldredge
