Re: Radioactive Materials License (RAML) Amendment Request to Add a RAM Use location and Physician Authorized Users

New Use Location:

Connecticut Heart Group (CHG) has joined the Hartford HealthCare Medical Group (HHCMG). The CHG Radioactive Materials License (# 06-30080-01) will no longer be needed and can be removed. Please amend the Hartford HealthCare Medical Group Radioactive Materials License (# 06-23559-01) to add the 251 West Main Street, Branford, Connecticut 06405 cardiac imaging office as a RAM Use location for the HHCMG Radioactive Materials License.

Changes will not occur regarding facilities, equipment, personnel or personnel duties. HHCMG will oversee the radiation safety program, use, possession, waste management, and other procedures. Equipment calibrations, sealed source leak tests, area surveys, wipe tests, training, quality control, and all related program records are up to date. HHCMG was made aware of any open inspection items and the responsibility for enforcement actions (none were noted).

A change in materials use will not be needed. The current materials use (10CFR35.200) for imaging and localization studies will continue at the Branford imaging location

New Physician Authorized Users (MD-AUs):

Please add the following physician authorized users to the HHCMG Radioactive Materials License (current approval for use is listed on the CHG radioactive materials license (attached))

1. Ajoy Kapoor MD Materials and Use: 10CFR35.200
2. Robert F. Morrison MD Materials and Use: 10CFR35.200
3. Jonathan S. Siegfried MD Materials and Use: 10CFR35.200

If you require anything further, or if have any questions or concerns, please do not hesitate to contact us.

Respectfully,

---
