

UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
WASHINGTON, D.C. 20555-0001

December 17, 2020

MEMORANDUM TO: Robert B. Elliott, Chief  
Environmental Review License Renewal Branch  
Division of Rulemaking, Environmental,  
and Financial Support  
Office of Nuclear Material Safety  
and Safeguards

FROM: Robert Hoffman, Environmental Scientist  
Environmental Review License Renewal Branch  
Division of Rulemaking, Environmental,  
and Financial Support  
Office of Nuclear Material Safety  
and Safeguards

SUBJECT: SUMMARY OF THE HISTORIC AND CULTURAL RESOURCES  
ENVIRONMENTAL AUDIT MEETING RELATED TO THE  
REVIEW OF THE SUBSEQUENT LICENSE RENEWAL  
APPLICATION FOR THE NORTH ANNA POWER STATION,  
UNITS 1 AND 2 (EPID NUMBER: L-2020-SLE-0000)

A handwritten signature in cursive script, reading "John Hancock", is placed over the name "Robert Hoffman" in the "FROM:" line.

Signed by Hoffman, R  
on 12/17/20

On December 1, 2020, staff from the U.S. Nuclear Regulatory Commission (NRC) and the Pamunkey Indian Tribe participated in an environmental audit meeting with Dominion Energy Virginia (Dominion) addressing historic and cultural resources in the vicinity of the North Anna Power Station, Units 1 and 2 (North Anna) in Louisa and Spotsylvania counties, VA. The meeting, conducted virtually using the Microsoft Teams platform, was in regard to the environmental review of the North Anna subsequent license renewal application and the associated National Historic Preservation Act Section 106 consultation. The enclosure is a list of representatives from NRC, the Pamunkey Indian Tribe, and Dominion.

The NRC invited the Pamunkey Indian Tribe to join the meeting in response to the Tribe's request to be a consulting party on this proposed undertaking (Agencywide Documents Access and Management System Accession Number ML20329A439). Staff from the NRC, Dominion, and the Tribe participated in the discussion. The Pamunkey Indian Tribe Cultural Resource Director indicated that the Tribe has concerns regarding the timing of the license renewal application and how potential cumulative impacts would be assessed, particularly with regard

to water quality. The majority of the discussion focused on communications that the applicant has had with Indian Tribes and the Virginia Department of Historic Resources related to this action, specifically the status of architectural surveys of facility structures being conducted to determine National Register of Historic Places eligibility.
