Dear Ms. Smith:

This refers to your NRC Form 313 dated September 15, 2020 for NRC Materials License No. 21-03210-01 for Ascension St. John Hospital. It appears that the current license, Amendment No. 72, License Condition 12.D. authorizes the licensee to name authorized medical physicists as needed. Based on the authorization in this license and discussion with you via electronic mail, we determined your amendment request is not applicable for NRC Materials License No. 21-03210-01 and therefore we closed the licensing action (Mail Control No. 623172) for this license.

If you have any questions or require clarification on any of the information stated above, you may contact us at (630) 829-9887.

In accordance with Title 10 of the *Code of Federal Regulations* 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Sincerely,
