3. IMC 2690	03/09/12	IMC 2690	12/15/20

TRAINING: No special training is required for any documents issued with this Change Notice.

REMARKS: IMC 2504, "Construction Inspection Program: Inspection of Construction and Operational Programs," has been revised to reflect the reunification of the Offices of New Reactors and Nuclear Reactor Regulation and the creation of the Vogtle Project Office, to make IMC 2504 consistent with the Vogtle Readiness Group memorandum dated August 14, 2020 (ML20191A383), and to update Appendix A and B inspection procedures applicable to IMC 2504.

IMC 2600 Appendix E, "Inspection Program Modifications During Pandemics, Epidemics, or Other Widespread Illnesses or Diseases," is an initial issuance that was created to address inspection program modifications during pandemics, epidemics, or other widespread illnesses or diseases.

IMC 2690, "Inspection Program for Storage of Spent Reactor Fuel and Reactor-Related Greater-Than-Class C Waste at Independent Spent Fuel Storage Installations and for 10 CFR PART 71 Transportation Packagings," is a major revision and has been revised to change the title; add five safety focus areas for inspection; revise definitions and responsibilities; add sections on the review of potential issues involving lack of clarity in the licensing basis, entrance and exit meetings, and coordination of headquarters technical support for inspection activities; revise IIP guidance; revised inspection report guidance for both the regions and headquarters; added, revised and clarified inspection frequencies and scope; clarified qualification and training requirements and added qualification requirement supplement; addition of risk prioritization tools; addition of pandemic guidance.
