## Submitter Information

**Name:** Darrin Johnson

**Organization:** Society of Nuclear Medicine & Molecular Imaging

---

## General Comment

There is no l data that supports Lucerno Dynamics' claim that extravasation of diagnostic radiopharmaceuticals is a patient safety issue. This is a company trying to create a market, nothing more, nothing less. Please look at the data submitted my others. This would create added expense for NO benefit.

Sincerely,  
Darrin Johnson, MD  
Radiology of Huntsville  
Vice President of Medical Staff, Huntsville Hospital
