

**UNITED STATES  
NUCLEAR REGULATORY COMMISSION**

REGION III  
2443 WARRENVILLE RD. SUITE 210  
LISLE, IL 60532-4352

December 23, 2020

David W. Hohmeyer  
Radiation Safety Officer  
Marathon Petroleum Company LP  
6480 Grand Haven Rd.  
Muskegon, MI 49441

Dear Mr. Hohmeyer:

Enclosed is Amendment No. 9 to your NRC Material License No. 21-26469-01 in accordance with your request. In the letter dated September 25, 2020 (ML20269A438), you requested to remove the location of use located at 1371 Trade Centre Dr., Traverse City, Michigan, from your license. Based on the information provided, the NRC staff has concluded that all licensable radioactive material has been removed from the location above and the residual radioactive material attributable to licensed activities does not exceed current NRC criteria. Therefore, you may release the location of use located 1371 Trade Centre Dr., Traverse City, Michigan, for unrestricted use.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

You will be periodically inspected by NRC. Failure to conduct your program in accordance with NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC will result in enforcement action against you. This could include issuance of a notice of violation, or imposition of a civil penalty, or an order suspending, modifying or revoking your license as specified in the General Statement of Policy and Procedure for NRC Enforcement Actions. Since serious consequences to employees and the public can result from failure to comply with NRC requirements, prompt and vigorous enforcement action will be taken when dealing with licensees who do not achieve the necessary meticulous attention to detail and the high standard of compliance which NRC expects of its licensees.

The NRC's Safety Culture Policy Statement became effective in June 2011. While a policy statement and not a regulation, it sets forth the agency's *expectations* for individuals and organizations to establish and maintain a positive safety culture. You can access the policy statement and supporting material that may benefit your organization on NRC's safety culture Web site at <http://www.nrc.gov/about-nrc/regulatory/enforcement/safety-culture.html>. We strongly encourage you to review this material and adapt it to your particular needs in order to develop and maintain a positive safety culture as you engage in NRC-regulated activities.

NRC's Regulatory Issue Summary (RIS) 2005-31 provides criteria to identify security-related sensitive information and guidance for handling and marking of such documents. This ensures that potentially sensitive information is not made publicly available through ADAMS, the NRC's electronic document system. Pursuant to NRC's RIS 2005-31 and in accordance with 10 CFR

The enclosed document contains sensitive security-related information.  
When separated from this cover letter this letter is uncontrolled.
