Mr. Todd Houts, Director
Environmental Health & Safety
Co-Director, MU Emergency Coordination
Curators of the University of Missouri - Columbia
c/o Gary Ward Vice Chancellor of Operations
900 East Stadium Blvd., Suite 180
Columbia, MO 65211

**SUBJECT: CURATORS OF THE UNIVERSITY OF MISSOURI - COLUMBIA, NRC
RESPONSE TO LICENSEE LETTER DATED DECEMBER 15, 2020
(MAIL CONTROL NUMBER 596692)**

Dear Mr. Houts:

This letter is in response to your letter dated December 15, 2020 (ML20351A247) requesting an extension for the final submittal in response to NRC's letter dated March 12, 2020 (ML20078L134) requesting additional information associated with the licensee's Decommissioning Plan. A discussion of this extension request occurred during an electronic conversation held on December 18, 2020. Specifically, the licensee requested an extension until February 8, 2021, instead of the earlier submittal date of January 7, 2021.

Please note that the information to be submitted by the licensee is associated with NRC's acceptance review of the Decommissioning Plan. The NRC will not initiate a full technical review until the NRC has accepted the Decommissioning Plan.

The NRC has reviewed the extension request, and based upon the information available, has no additional questions at this time. If additional delays occur in your response, please notify us as soon as possible.

If you have any questions concerning the decommissioning process or the requirements for the decommissioning of your facility, you may contact Michael LaFranzo of the Materials Control, ISFSI, and Decommissioning Branch at 630-829-9865.

Any correspondence regarding the decommissioning of your facility should reference the control number specified below, and your license number.

Sincerely,

Michael M. LaFranzo, Senior Health Physicist
Materials Control, ISFSI, and
Decommissioning Branch
Division of Nuclear Materials Safety
