SUBJECT: TERMINATION OF YOUR NRC RADIOACTIVE MATERIALS LICENSE

Dear Dr. Speidel:

In the letter dated September 28, 2020, you contacted the U.S. Nuclear Regulatory Commission and indicated that you wished to terminate your NRC radioactive material license. The NRC staff has reviewed the information provided. Based on its review, the staff has concluded that all licensable radioactive material has been removed from your facilities located at 1390 Highway 61 South, Ste. 2300, Crystal City, Missouri, and 3844 S. Lindbergh Blvd., Ste. 220, St. Louis, Missouri, and residual radioactive material attributable to licensed activities does not exceed current NRC criteria.

Based on these conclusions no further remediation or actions with respect to NRC regulated material is required. Your facility is suitable for unrestricted use and NRC license number 24-32650-01 is hereby terminated.

In accordance with Title 10 Code of Federal Regulations 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

If you have any questions, please contact me at (630) 829-9876.

Sincerely,

Erin J. Kennedy
Health Physicist
Materials Licensing Branch
