

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

January 4, 2021

Mr. Robert Swartz
Acting Policy Director
Office of Nonproliferation and Arms Control
National Nuclear Security Administration
U.S. Department of Energy
1000 Independence Avenue, S.W.
Washington, D.C. 20585

Mr. Robert Swartz:

Enclosed is an application (XSOU8787/06), dated September 1 2020, received by the U.S. Nuclear Regulatory Commission (NRC), from URENCO, Inc., for the export of 72,000,000 kilograms (kg) of natural uranium in the form of uranium hexafluoride (UF₆) to URENCO facilities for enrichment and return to the U.S. for ultimate use as fuel in nuclear power reactors.

The purpose of this amendment is to extend the date of expiration from December 31, 2020 to December 31, 2023.

Since only the extension of the expiration date of the existing license is being requested, our office is processing this as a minor amendment. The NRC intends to issue the requested license after the 30-day time period allotted for public review has expired, and it is determined that applicable export license criteria are met.

Sincerely,

1/4/2021

 Peter J. Habighorst

Peter J. Habighorst
