Alternatives to the Use of Credit Ratings: Advance Notice of Proposed Rulemaking; Request for Comment; 10 CFR Parts 30, 40, 50, 70, and 72; [NRC-2017-0021] RIN 3150-AJ92

On December 21, 2020, the NRC published a notice in the *Federal Register* ([85 FR 82950](#)) announcing consideration of an amendment to its regulations that would alter financial assurance mechanisms approved by the NRC for the decommissioning of nuclear power plants and other nuclear facilities. This action would amend provisions for parent company and self company guarantees that require bond ratings issued by credit rating agencies. This action would implement the provisions of the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010, which directed agencies to amend their regulations to remove any reference to or reliance on credit ratings. The NRC is soliciting public comment on potential approaches for amending the regulations. The NRC plans to hold a public meeting during the comment period to facilitate stakeholder participation. Comments are requested by March 8, 2021.
