Dear Mr. Wilkins:

We have reviewed your amendment request dated October 23, 2020 for NRC License No. 21-26060-01. We will need the following to complete our review and amend your license.

1. Please confirm that the request is to replace the current Radiation Safety Officer (RSO) with Mr. Dustin M. McDonald.
2. Provide a copy of the delegation of authority for the proposed RSO with the signatures from the management and the proposed RSO confirming that he/she is aware that he/she will be the RSO and will perform duties and responsibilities as specified in Title 10 of the Code of Federal Regulations (10 CFR) 34.42(c) and the licensee's established procedures. A sample of the delegation of authority for RSO is attached for your reference.
3. Provide information (such as a copy of the training completion certificate) that Mr. McDonald has completed a formal training in the establishment and maintenance of a radiation protection program as required by 10 CFR 34.42(a)(3). Based on Section 8.7.1, "Radiation Safety Officer", in NUREG-1556, Volume 2, Revision 1, this training should be a course specifically designed to provide training in managing and implementing a radiation safety program such as a RSO training course for industrial radiography. Acceptable training programs would be a classroom course typical of those provided through universities or commercial training facilities. For your reference, an electronic copy of NUREG-1556, Vol. 2, Rev. 1, can be downloaded from the NRC's website at <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v2/>

Please provide a response in writing with date and authorized signature by November 30, 2020. You should indicate Mail Control No. 623475 in the cover letter to facilitate proper mail handling in our office. You could mail or fax your response to 630-515-1078 or email the response as a protected pdf to frank.tran@nrc.gov.

If you have any questions, please do not hesitate to contact me at 630-829-9623 or reply to this email.

Thank you.
