Hi Rick,

Please find attached comments on the draft IMC-0335 for NRC staff consideration. The comments were provided by NEI members representing the 50.59, 72.48, and PRA communities. In most cases, the comments center around lessons learned or other guidance that may be useful to the inspectors.

Additionally, the NEI 50.59 working team reviewed all of the comments and highlighted those in **RED**, that are the most significant from our team perspective with some directly applicable to the efforts our two working teams have undertaken over the past year to improve the use of risk insights and provide other clarifications into the 50.59 process. Those comments are; 6, 14, 15, 18, 19, and 49.

Feel free to reach out if you would like to discuss any of these comments in more detail including those that may have come from outside of the NEI 50.59 working team.

I hope you and your family are able to relax and enjoy the holidays!

Thanks,

Tim
