Ms. Annette Vietti-Cook  
Secretary  
U.S. Nuclear Regulatory Commission  
Washington, DC 20555-0001

**Subject:** Request for an Extension of Comment Period on Draft NUREG-1757, Vol.2, Rev. 2, "Consolidated Decommissioning Guidance, Characterization, Survey, and Determination of Radiological Criteria," Docket ID NRC-2020-0192

*Submitted via Regulations.gov*

**Project Number: 689**

Dear Ms. Vietti-Cook:

On behalf of its members, the Nuclear Energy Institute (NEI)<sup>1</sup> appreciates the opportunity to review and provide comments on Draft NUREG-1757, Volume 2, Revision 2, "Consolidated Decommissioning Guidance, Characterization, Survey, and Determination of Radiological Criteria."

In a Federal Register Notice dated December 8, 2020, the U.S. Nuclear Regulatory Commission requested that stakeholder comments be submitted by February 8, 2021. NEI requests an extension of the comment period of 60 days to Friday April 9, 2021. We believe this extension is necessary to permit adequate stakeholder engagement on this important topic given the extensive nature of this revision, and as the industry works to develop its own, complimentary guidance on the license termination process.

If you have questions or require additional information, please contact me at (202) 739-8128, [bsm@nei.org](mailto:bsm@nei.org).

Sincerely,

A handwritten signature in black ink, appearing to read "Bruce Montgomery", is written over a horizontal line. Below the signature, the name "Bruce Montgomery" is printed in a black, sans-serif font.

Bruce Montgomery

c: Ms. Patricia Holahan, NRC/NMSS/DUWP  
Mr. Bruce Watson, NRC/NMSS/DUWP/RDB

---

<sup>1</sup> The Nuclear Energy Institute (NEI) is responsible for establishing unified policy on behalf of its members relating to matters affecting the nuclear energy industry, including the regulatory aspects of generic operational and technical issues. NEI's members include entities licensed to operate commercial nuclear power plants in the United States, nuclear plant designers, major architect and engineering firms, fuel cycle facilities, nuclear materials licensees, and other organizations involved in the nuclear energy industry.
