SUBJECT: REVIEW OF RESPONSES TO ENVIRONMENTAL REQUESTS FOR
ADDITIONAL INFORMATION FOR THE ENVIRONMENTAL IMPACT
STATEMENT FOR HOLTEC INTERNATIONAL'S CONSOLIDATED INTERIM
STORAGE FACILITY LOCATED IN LEA COUNTY, NEW MEXICO (DOCKET
NUMBER: 72-1051)

Dear Ms. Manzione:

The U.S. Nuclear Regulatory Commission (NRC) staff received your letter dated September 16, 2020 (Agencywide Documents Access and Management System Accession Number ML20260H139) in which you responded to two environmental requests for additional information (RAI) for the environmental review of Holtec International's (Holtec) proposed Holtec Hi-Store Consolidated Interim Storage Facility. The NRC staff has reviewed Holtec's responses to RAIs ER-GEN-2 and ER-WR-8 and determined that additional documentation is needed to support your response.

In both RAI responses, you refer to discussions with the U.S. Army Corps of Engineers (USACE) Albuquerque District regarding the status of the waters surrounding the proposed site and the determination of jurisdictional wetlands. Please provide official documentation from the USACE supporting its determination that there are no Waters of the United States or jurisdictional wetlands located at or surrounding the site.

Should you have any questions concerning the need for additional information to complete Holtec's RAI response, please contact Ms. Jill Caverly at 301-415-7674 or via e-mail at Jill.Caverly@nrc.gov.

Sincerely,
